

To whom it may concern:

I live in Durango, Colorado. I respectfully request that you allow a TV channel within my state of residence, Colorado - not New Mexico. I consider it my constitutional right to be informed on my in-state issues and electable candidates before I die, please. I purchase New York and Los Angeles channels/stations from Direct TV so I can at least keep up on National issues and candidates. Albuquerque, New Mexico is sadly lacking in any national news coverage.

Thank you for your consideration to this issue.
